And starting today, McDonald's in the Greater St. Louis area is the place to get it.

No fooling, a good, flavorful cup of coffee for only a nickel . . .

> During the entire month of December.

Combine coffee at 5c and hot apple pie at 20c, and enjoy a great coffee break for only 25c.

In these inflationary times, you have to search for value. For value is not price alone, it must also have quality.

That's why hot apple pie and a cup of coffee for 25c is a true value. It is value because our ingredients are the finest. We use the same quality products you use at home.

We've always sold value. That's why coffee at McDonald's is now 5c . . . thru December 31st.

> So, stretch your appetite and your dollar at your kind of place . . . McDonald's.

After all, just because your dollars keeps shrinking is no reason your appetite has to. Pedit Theft Charged
